

# JTC TALKS

## Parent Education

Onsite | Online | Videoconference

# Telepractice

Interactive educational sessions via the internet  
Conversations conducted in English or Spanish

Parent coaching in listening, language & speech  
Specialized support for child with CI, HA or ABI

Rev. 5/2018

JTC's telepractice is an option for young children with hearing loss and their families wanting spoken language services. These distance appointments occur in live video sessions where parents interact with their child at home and are coached by JTC experts. Support is provided for families to identify goals, practice strategies and recognize skills. Parents can ask questions, explain concerns and share progress.

Request individualized telepractice sessions for child with hearing loss and parent(s).

Consult with JTC experts including Parent/Infant coaches, Auditory Verbal Therapists (AVTs), Listening Spoken Language (LSL) Specialists or Teachers of the Deaf/Hard of Hearing (D/HH).

## Requirements

- Child birth to eight years old with a hearing loss
- Parent participation during complete online session
- Family in time zone where appointment in PT is feasible
- Computer with internet connection and webcam
- Installation of free easy to use software

## Arrangements

- A minimum of one session every two weeks for a few months is suggested at start.
- Families who attended JTC's International Sessions may ask for a modified schedule.
- Cost is US\$140 per 50 minute session for CA families and International.
- Payment is due 48 hours after receipt of invoice.
- Space is limited. Email [pals@jtc.org](mailto:pals@jtc.org) to obtain request form.

*Our daughter is finally beginning to express herself. What a brilliant turn-around for her to be asking questions and responding in the game [during telepractice]. It is wonderful to see her experience the power of language. I know we still have a lot to do and our skills have a profound impact but we have made tangible progress with JTC.*

*Family from Ireland*
